

Hahnemühle Riesling Alter Wingert 2023

The Riesling grapes come from vineyards that are up to 43 years old. A deep root system that has grown over decades provides these old vines with sufficient water even in the hottest summer heat. This leads to balanced growth and loose berries, which allows them to ripen for a long time. These vines produce top quality grapes, and you can taste it. Rieslings from the vineyards Cöllner Seidenberg, Cöllner Rosenberg and Oberndorfer Stein; all grown on weathered sandstone soil.

Mineral, delicate, elegant & round.

11.36 €
